EXPERIENCE

PHPPoets | Frontend Developer | June 2019 - Current

Worked on various projects from websites to Individual & custom web application development, I've also:

- Worked with clients for clear understanding of the project & frontend requirements.
- Handled critical projects with limited oversight
- Pushed for new ideas in designs & page optimizations
- Also implemented best practices for server deployment & security control

Stőcy Media | UI/UX Designer | 2018 - Jan 2019

Worked with some curious college-mates to create design for a unique idea, also supported the overall process via researching, testing & introducing new ideas for the app.

- Had lot of exposure to creative ideas because of it
- Changed my perspective of viewing things
- Critical understanding of optimized code & it's use
- Also, not every idea is worth pursuing
